Basis for reclassification:

The Environmental Restoration Contractor (Bechtel Hanford, Inc.) acquired this facility in April 1995. A Memorandum of Agreement (MOA) concerning the facility transfer of responsibility was signed by DOE-HQ on April 20, 1995. The MOA included a "punch list" that included a 90 Day Storage Pad and stated that the 90 Day Pad and all wastes must be removed/cleaned up. When Bechtel took possession of the facility, the 90 Day Storage Pad had been removed and there was no evidence of any remaining wastes (spills). Thus, the site was closed in compliance with WAC 173-303-630(10).
